DETAILED ACTION

1. This office action is in response to the Amendment, filed on February 27, 2007.
2. Claims 14, 57, 78, 83-84 and 87-89 are amended. Claims 1-13, 15, 21-56, 59, 61-64, 66-77, 82, 86 and 91-92 are canceled. Claims 14, 16-20, 57-58, 60, 65, 78-81, 83-85 and 87-90 are pending and presented for examination for this office action.

Allowable Subject Matter

3. Claims 14, 16-20, 57-58, 60, 65, 78-81, 83-85 and 87-90 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claims 14 and 57 identify distinct features, "comparing the search results from the searchable index with the search results from the collection of geographically authenticated URL addresses to identify an authenticated set of URL addresses of the electronic documents which match the desired geographic location and the specified keyword, returning the authenticated set of URL addresses of the electronic documents which match the desired geographic location and the specified keyword, wherein creating a collection URL addresses of electronic documents that are associated with businesses having geographic location being authenticated by a mechanism other than by the content of the electronic document further includes, storing, in a table locally on a user computer, the URL addresses that are associated with businesses having a

Art Unit: 2166

geographic location corresponding to the desired geographic location: using a web-browser plug-in, detecting a requested URL address in search results from a search engine, checking whether the requested URL address is stored in the table to verify that the requested URL address is associated with the desired geographic location and providing a user warning if the requested URL address is not associated with the desired geographic location". The closest prior art, Polnerow et al (U.S. Patent No. 5,813,006) disclosing search URL address of web site, fails to suggest the claimed limitation as mentioned above in combination with other claimed elements. The above features in conjunction with all other limitations of the dependent and independent claims 14, 16-20, 57-58, 60, 65, 78-81, 83-85 and 87-90 are hereby allowed.
